

Captain Fantastic: A Journey Through the Wilderness and the Heart

In the heart of the wilderness, far from the trappings of modern society, lives Captain Fantastic and his six children. He has raised them to be self-sufficient and independent, teaching them to hunt, forage, and live off the land. They are a family of outsiders, living by their own rules and values.

Excerpt

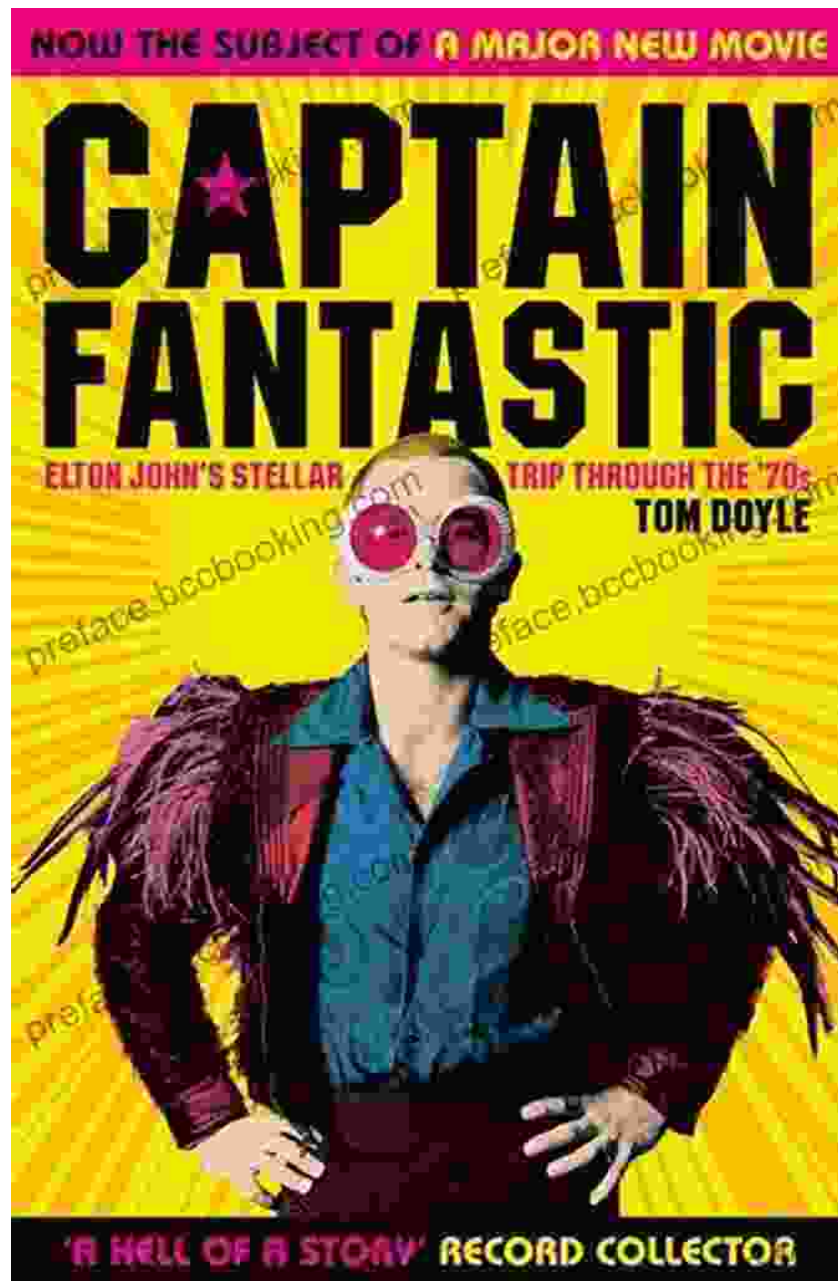

"The children were all asleep, curled up together in their sleeping bags like a litter of puppies. Captain Fantastic watched them for a moment, a smile playing on his lips. He had raised them to be independent and self-sufficient, but they were still his babies. He loved them more than anything in the world."

"He turned and walked out of the tent, leaving the children to sleep. He needed some time to himself, to think. The past few weeks had been hard on them all. They had lost their mother, and they were all still grieving. Captain Fantastic didn't know how to help them, but he was determined to find a way."
