Brown Paper Bag Book Cover

What You Need: • 1 book • 1 paper bag • Scissors • Tape

- 1. Cut Open Brown Paper Bag**
Cut open a brown paper shopping bag, the kind you get at the grocery store. Start by cutting down the center from top to bottom, then cut around three sides of the bottom. The paper should flatten out on the table.
NOTE: Brown paper is a type designed for wrapping parcels, or all purpose paper, is not to be used. Cut a piece long enough to cover the front, back and spine of the book with at least three inches of overlap at either end.
- 2. Cut Off the Bottom Flap**
From preparing the paper bag by cutting off the bottom flap. This should give you a large jumbo size piece of brown paper. Alternatively, you can just a piece from a roll of brown parcel wrapping paper.
- 3. Fold Paper Up Along Top and Bottom of Spine**
Place the book in the center of the paper. Wrap the paper up around the bottom of the book and make a crease along the bottom edge. Repeat for the top cover.
- 4. Fold Paper Down Along Crease at Top and Bottom**
Remove the book from the paper. Fold the paper up at the bottom crease and down at the top crease. You should have a flap of paper bag enough to cover the book from top to bottom.
- 5. Center the Book in the Paper**
Place the book back in the center of the paper. Wrap the paper around the front of the book from left to right and right to back position until the two ends of the paper are flat.
- 6. Wrap Cover Around Front of Book**
Fold the overlap around the front cover of the book and make a crease. If the flap is too long, trim to reach two-thirds to three-quarters of the way across the book cover.
- 7. Insert Book Front Cover into Paper Bag Cover**
Insert the front cover of the book into the slot created by the paper folded over at the top and bottom. Slide the paper down over the book until you feel that crease.
NOTE: Do not tape your cover to the actual book, you could damage the book's cover as the paper cover moves when the book opens and closes.
- 8. Complete Front Cover**
Close the front cover of the book, putting the paper flap across the front of the book. The front cover is now complete.
- 9. Insert Book Back Cover into Paper Bag Cover**
Fold the remaining paper around the back cover of the book and make a crease. Insert the back cover of the book into the slot created by the paper folded over at the top and the bottom. Slide the paper down over the book until you hit the crease.
NOTE: Do not tape your cover to the actual book, you could damage the book's cover as the paper cover moves when the book opens and closes.
- 10. Final Completed Cover**
If the cover fits snugly, you can stop at this point. If it seems a little loose or the top and bottom folds are not lying flat, THEN you can use small pieces of tape to pull the front and the inside flap of YOUR cover together to hold the cover to the actual book. you could damage the book's cover as your cover moves when the book opens and closes.

Endorsements and Reviews

"This book is an absolute lifesaver! I've always been intimidated by home improvement, but Step By Step Instructions has given me the confidence to tackle even complex projects." - **Jane Doe, DIY Enthusiast**

"As a professional home improvement contractor, I highly recommend this book to both homeowners and aspiring professionals. It's the most comprehensive and accessible guide to home improvement on the market."
- **John Smith, Licensed Contractor**
