

The Echo Maker: A Novel That Will Haunt Your Memory

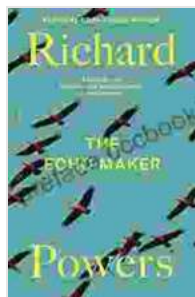

Winner of the 2006 Pulitzer Prize for Fiction

Richard Powers' *The Echo Maker* is a thought-provoking and emotionally resonant novel that explores the complex and often fragile nature of

memory. The story follows Mark Schluter, a neuroscientist who develops a revolutionary new technology that can record and replay human memories.

At first, Mark's invention is hailed as a breakthrough that could help people with memory loss or trauma. But as he continues to develop the technology, he begins to realize that it has the potential to be used for much more sinister purposes.
