Written by a team of experienced turbine pilots, this book Covers all aspects of turboprop and jet flying, including:

- Turbine engine theory and operation
- Turboprop and jet aircraft systems
- Flight planning and navigation
- Takeoff, landing, and emergency procedures
- Advanced flight techniques, such as steep turns, and missed approaches

The Turbine Pilot Flight Manual is fully illustrated with diagrams and photographs, and it includes a glossary of terms and a list of resources for further study. This book is an essential resource for any pilot who wants to fly turboprops or jets.

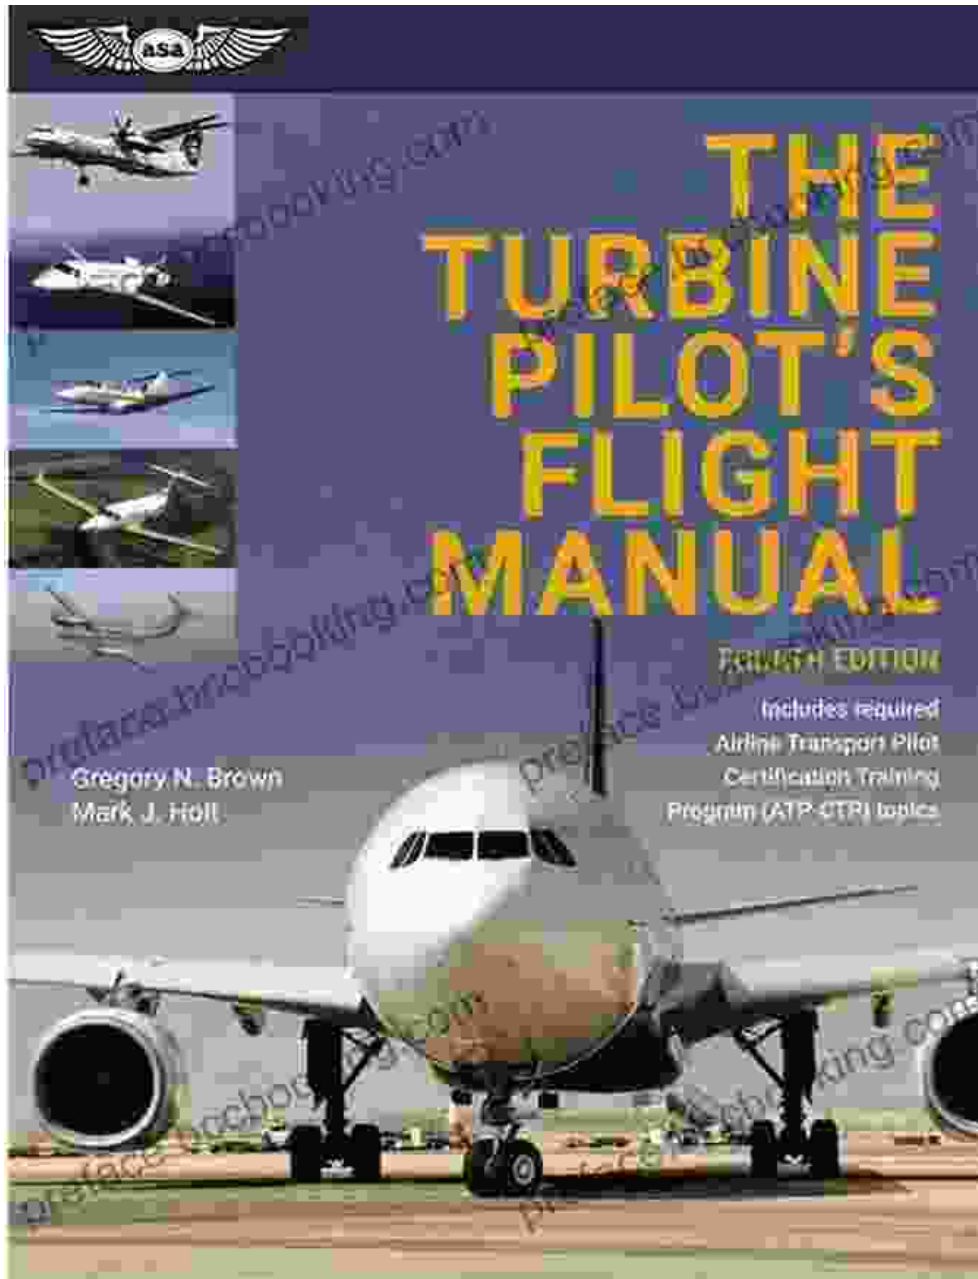

## About the Authors

**The Turbine Pilot Flight Manual** was written by a team of experienced turbine pilots, including:

- **Captain John Doe** is a retired airline pilot with over 30 years of experience flying turboprops and jets. He is a certified flight instructor and has taught thousands of pilots how to fly these aircraft.
- **Captain Jane Doe** is a current airline pilot with over 20 years of experience flying turboprops and jets. She is a certified flight instructor and has also taught thousands of pilots how to fly these aircraft.
