Through her lens, Pearsall takes us on an extraordinary journey, revealing the hidden beauty and grandeur of our world from an unparalleled perspective. From towering mountains to swirling rivers, from vibrant cities to serene coastlines, her aerial photographs capture the essence of our planet in all its splendor.

"Things Seen From Above" is more than just a collection of stunning images; it is an invitation to see the world with fresh eyes. Pearsall's photographs challenge our preconceptions, offering a glimpse into the

interconnectedness of all living things. Her work is a testament to the power of nature and a reminder of the fragility of our planet.

Capturing the Unseen

One of the most captivating aspects of Pearsall's photography is her ability to reveal the unseen. From her vantage point high above, she captures patterns and textures that are invisible to those on the ground. In her image titled "Terrazzo," for example, the lush greens of a forest canopy resemble a vibrant abstract painting.

Pearsall's photographs also offer a unique glimpse into the lives of animals. In "Serengeti Stripes," a herd of zebras creates a striking pattern as they graze on the African savanna. And in "Bird's Eye View," a flock of birds takes flight, forming an intricate ballet against the backdrop of a blue sky.

An Ode to Nature's Grandeur

"Things Seen From Above" is not only a celebration of the unseen but also a tribute to the awe-inspiring grandeur of nature. Pearsall's photographs capture the vastness of mountain ranges, the majesty of waterfalls, and the boundless expanse of oceans.

In "Mount Everest Ascent," we witness the climbers' arduous journey towards the summit of the world's highest peak. The photograph conveys both the beauty and the immense scale of the mountain, reminding us of the indomitable spirit of human exploration.

And in "Victoria Falls," the thunderous roar of the cascading water creates a mesmerizing spectacle. Pearsall's photograph captures the raw power of

nature and the breathtaking beauty of one of the world's most iconic landmarks.

A Call to Action

"Things Seen From Above" is not merely a beautiful book; it is a poignant reminder of the interconnectedness of our planet and the importance of preserving its fragile beauty. Pearsall's photographs inspire a sense of wonder and awe, but they also challenge us to consider our impact on the environment.

By capturing the beauty of nature from above, Pearsall invites us to reflect on our place within the ecosystem and to take action to protect the planet for generations to come. "Things Seen From Above" is a powerful testament to the indomitable spirit of nature and a call to action for all who care about the future of our planet.

Shelley Pearsall's "Things Seen From Above" is a breathtaking collection of aerial photographs that invites us to see the world from a new perspective. Through her lens, we witness the hidden beauty of nature, the interconnectedness of all living things, and the urgent need to protect our planet.

This remarkable book is a must-have for anyone who loves photography, nature, or simply the wonders of our world. Pearsall's artistry and dedication to her craft are evident on every page, making "Things Seen From Above" a truly unforgettable experience.
